Cantilever Racking, Pigeon-hole racks, Timber locker, A-Frame racks and racks for metal sheet are specially designed to store long goods and items of varying lengths.

They are ideal for the safe and organised storage of long and heavy loads. They are also ideal systems for storing steel bars, pipes, tubes, furniture and packs of timber. Some of them are also suitable for storing boards, metal sheets or large and valuable items such as crates or boxes and even white goods. The best solutions provide a clear layout with easy access, as they do away with the need for vertical uprights at the front fo
