News:

Achieving effective warehouse efficiency in a world of change and uncertainty

Decisions, decisions, decisions...

The Warehouse Technology Group brings together a wealth of experience, knowledge and skills at this unique live event, which is now in its seventh year.

You are invited to come along as our **VIP guest** to hear how investment in business-improving warehouse technology and equipment can help you meet the challenges presented by the current business climate, the emerging labour shortage and the growth of e-tailing.

You will see how the leading-edge solutions offered by the Warehouse Technology Group partners can help you to manage stock more effectively and improve the overall responsiveness of your operation.

At the event, you'll have the opportunity to:

- Enjoy keynote presentations from industry experts.
- Watch live demonstrations, including the Dexion Tornado vertical storage machine.
- Talk to industry leaders about the big issues that concern your business.
- Network with logistics and warehousing professionals.
- Attend the first UK demonstrations of some revolutionary new products from Toyota Material Handling.
